

# 2014 Recreational Trails Program Awards

| County   | City/Village | Applicant                                     | Project                            | Total Project Costs | RTP Funding  | Proposal                                                                                                                                                                                                                         |
|----------|--------------|-----------------------------------------------|------------------------------------|---------------------|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Auglaize |              | New Bremen                                    | Kuenning Dicke Loop Trail          | \$147,040.00        | \$94,472.00  | Construction of 3,800 linear feet of 10 ft wide asphalt loop trail through the Kuenning-Dick Natural Area. The proposed project will connect with the Miami and Erie Canal Towpath.                                              |
| Clermont | City of      | Loveland                                      | East Loveland Nature Preserve      | \$100,000.00        | \$80,000.00  | This project will add a new trail spur to existing loop trails located in a nature preserve to improve access from a nearby parking lot. This access will include a new pedestrian bridge to cross Bares Run Creek.              |
| Greene   |              | Antioch College, Glen Helen Ecology Institute | Castle Rock Trail                  | \$117,550.00        | \$85,250.00  | This project involves the restoration of a walkway across the top of the dam spanning Yellow Spring Creek, closing a steep and degraded section of trail, restoring a stone walkway across a seep and removing a failing bridge. |
| Henry    |              | Henry County Park District                    | North Turkey Foot Creek Bridge     | \$190,090.00        | \$150,000.00 | The current bridge will be removed for public safety reasons and a new pedestrian timber suspension bridge will take its place.                                                                                                  |
| Hocking  |              | U.S. Forest Service, Wayne National Forest    | Educational Project                | \$6,250.00          | \$5,000.00   | Purchase of educational supplies that promote responsible recreational trail use along with trail safety brochures.                                                                                                              |
| Hocking  |              | U.S. Forest Service, Wayne National Forest    | 2014 Dorr Run/Purdum Loop Area     | \$260,000.00        | \$200,000.00 | Reconstruction and reopening of 2 miles of the Deer Stand Loop, which has not been maintained for 10 years. Tread maintenance will also be completed as needed along the 80 miles of the Monday Creek OHV trail system.          |
| Lawrence |              | U.S. Forest Service, Wayne National Forest    | Ironton District ATV Trail Systems | \$187,500.00        | \$150,000.00 | Maintenance of 35 to 59 miles of ATV trails on Wayne National Forest land in the Ironton District. Work will include the removal of hazardous trees and light and heavy tread work.                                              |

| <b>County</b>                | <b>City/Village</b> | <b>Applicant</b>                                                  | <b>Project</b>                      | <b>Total Project Costs</b> | <b>RTP Funding</b> | <b>Proposal</b>                                                                                                                                                                                                            |
|------------------------------|---------------------|-------------------------------------------------------------------|-------------------------------------|----------------------------|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lucas                        |                     | Metropolitan Park District of the Toledo Area                     | Wabash Cannonball Trail             | \$187,500.00               | \$38,272.00        | Construction of a restroom facility at Fallen Timbers Battlefield that would function as a trailhead for the 64 mile long Wabash Cannonball Trail.                                                                         |
| Madison                      |                     | Madison County Park District                                      | Prairie Grass Trail                 | \$33,647.00                | \$23,216.00        | This maintenance project will improve the condition of the asphalt surface of 6.5 miles of the Ohio-to-Erie Trail. This maintenance usually takes place every 5 years..                                                    |
| Mahoning                     |                     | Henry M. Halestead Field of Opportunity Inc. dba The Walnut Grove | The Walnut Grove                    | \$205,702.00               | \$121,601.00       | The construction of a recreational trail for persons with special needs (open to the public) that will connect with the Mill Creek Park Trail.                                                                             |
| Miami                        |                     | Newton Township                                                   | Loop Trail                          | \$147,600.00               | \$109,328.00       | Construction of a 10 ft wide asphalt loop trail in the new 35 acre Newton Township Park, which will provide access to facilities within and around this park.                                                              |
| Miami                        | City of             | Tipp City                                                         | Leshner Woods Trail Linkage Project | \$187,250.00               | \$149,800.00       | This trail project will create the linkage from the existing trail on Donn Davis Way and E Kessler-Cowlesville Rd. southerly through Leshner Woods and Manchester Chase Park.                                              |
| Montgomery                   | City of             | Dayton                                                            | Wolf Creek Recreational Trail       | \$187,000.00               | \$142,800.00       | Asphalt resurfacing of existing recreational trail known as the Wolf Creek Recreational Trail. The restoration work includes two miles of trail resurfacing in a urbanized area in the City of Dayton.                     |
| Pike, Perry, Jackson, Fulton |                     | Ohio Division of Forestry                                         | State Forest APV Areas              | \$132,500.00               | \$106,000.00       | Routine maintenance including grading, trail improvements, sign repair and trailhead improvements. New trail installation will also be a part of this project. All work will be completed in four APV areas.               |
| Stark and Carroll            |                     | Stark County Park District                                        | Sandy Valley Trail-Magnolia         | \$146,039.00               | \$111,903.00       | A 10 ft wide aggregate walking/bicycling loop trail will go around Magnolia's Village Park, then along an on road route to Canal Street. The trail then moves to a railroad corridor where the 10 ft wide trail continues. |

| <b>County</b> | <b>City/Village</b> | <b>Applicant</b> | <b>Project</b>                    | <b>Total Project Costs</b> | <b>RTP Funding</b> | <b>Proposal</b>                                                                                                                                                                                                              |
